CONTENTS

No. 1, February 1997

PAGE

Janet Moore and Pat Willmer. Convergent evolution in invertebrates . . 1

Wendy A. Weiger. Serotonergic modulation of behaviour: a phylogenetic overview 61

Oliver Mayo and Reinhard Bürger. The evolution of dominance: a theory whose time has passed? 97

Peter M. Kappeler. Determinants of primate social organization: comparative evidence and new insights from Malagasy lemurs 111

No. 2, May 1997

C. Barker Jørgensen. 200 years of amphibian water economy: from Robert Townson to the present 153

A. Dafni, M. Lehrer and P. G. Kevan. Spatial flower parameters and insect spatial vision 239

Michael D. Jennions and Marion Petrie. Variation in mate choice and mating preferences: a review of causes and consequences 283

M. Desai and C. N. Hales. Role of fetal and infant growth in programming metabolism in later life 329

No. 3, August 1997

Calum MacNeil, Jaimie T. A. Dick and Robert W. Elwood. The trophic ecology of freshwater *Gammarus* spp. (Crustacea: Amphipoda): problems and perspectives concerning the functional feeding group concept . . 349

B. T. Clarke. The natural history of amphibian skin secretions, their normal functioning and potential medical applications 365

Y. Elad. Responses of plants to infection by *Boitrytis cinerea* and novel means involved in reducing their susceptibility to infection 381

Mark Wilkinson. Characters, congruence and quality: a study of neuroanatomical and traditional data in caecilian phylogeny 423

No. 4, November 1997

Michael S. Y. Lee and Paul Doughty. The relationship between evolutionary theory and phylogenetic analysis. 471

RANDY THORNHILL and ANDERS PAPE MØLLER. Developmental stability, disease and medicine 497

P. J. A. PUGH. Spiracle structure in ticks (Ixodida: Anactinotrichida: Arachnida): résumé, taxonomic and functional significance 549

INDEX OF AUTHORS

BARKER JØRGENSEN, C. 200 years of amphibian water economy: from Robert Townson to the present 153

CLARKE, B. T. The natural history of amphibian skin secretions, their normal functioning and potential medical applications 365

DAFNI, A., LEHRER, M. & KEVAN, P. G. Spatial flower parameters and insect spatial vision 239

DESAI, M. & HALES, C. N. Role of fetal and infant growth in programming metabolism in later life 329

ELAD, Y. Responses of plants to infection by *Botrytis cinerea* and novel means involved in reducing their susceptibility to infection 381

JENNIONS, M. D. & PETRIE, M. Variation in mate choice and mating preferences: a review of causes and consequences 283

KAPPELER, P. M. Determinants of primate social organization: comparative evidence and new insights from Malagasy lemurs 111

LEE, M. S. Y. & DOUGHTY, P. The relationship between evolutionary theory and phylogenetic analysis 471

MACNEIL, C., DICK, T. A. & ELWOOD, R. W. The trophic ecology of freshwater *Gammarus* spp. (Crustacea: Amphipoda): problems and perspectives concerning the functional feeding group concept 349

MAYO, O. & BÜRGER, R. The evolution of dominance: a theory whose time has passed? 97

MOORE, J. & WILLMER, P. Convergent evolution in invertebrates . . . 1

PUGH, P. J. A. Spiracle structure in ticks (Ixodida: Anactinotrichida: Arachnida): résumé, taxonomic and functional significance 549

THORNHILL, R. & MØLLER, A. P. Developmental stability, disease and medicine 497

WEIGER, W. A. Serotonergic modulation of behaviour: a phylogenetic overview 61

WILKINSON, M. Characters, congruence and quality: a study of neuroanatomical and traditional data in caecilian phylogeny. 423
